Introduction

The user manual is designed to familiarize new users with the municipal profiles application and to provide additional knowledge to users who are familiar with the product. This manual will focus on the tasks involved with setting up the application as well guidelines on how to use the product.

Minimum Requirements

Windows 98 Second Edition / 2000 Professional / XP

Internet Explorer 5.5 or Above

Adobe Reader

SVG Viewer

Flash (Optional)

Adobe Reader

Adobe Reader is a program which displays PDF files. The help file for the Municipal profiles application is in PDF format. In order to view the help file, Adobe Reader is required.

The latest version of adobe reader can be downloaded from

<http://www.adobe.com/products/acrobat/readstep2.html>

SVG Viewer

Scalable Vector Graphics (SVG) is an XML markup language for describing two-dimensional vector graphics.

The Municipal profiles application uses SVG in order to render maps. Using the SVG component these maps can be dynamic and interactive. In order to view these maps, the Adobe SVG Viewer is required.

The latest version of adobe SVG viewer can be downloaded from

<http://www.adobe.com/products/acrobat/readstep2.html>

Navigation Menu

The navigation menu is located on the top of the page. This makes the menu relatively easy for the user to find. In addition it provides quick access to view profiles. The latter sections will explain how to use the navigation menu.

Bottom Banner

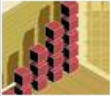

Clicking at this part of the banner will take you out of this Municipal Profile Application and direct you to the Statistics SA website. You will require a connection to the internet.

The challenges to be faced in the establishment of a new municipal system in South Africa are great. As part of its contribution to that process, Statistics South Africa has created a facility through which publically available information on municipalities may be shared. These MUNICIPAL PROFILES are easy to use, providing spatial and attribute information on each of the newly established municipalities.

The Board hopes that the information provided will be of use to municipalities as they develop their IDPs, to government as it targets funding and resources and to those requiring information on our new municipal system. The statistics part of the data contained in these Municipal Profiles comes from the Statistics South Africa ©Census 1996 and Census 2001 databases. The Board hopes that these data and information will spur users to make available further data and information sources and allow us to build a knowledge-based municipal system.

Locational Information for Ward Number 2

[Villages/Suburbs](#) | [Schools](#) | [Medical Facilities](#) | [Police Stations](#) | [Farms](#)

The suburbs/villages names information is derived from the 2001 Census place names database. Information for the farm names is obtained from the Surveyor-Generals digital information supplied by the Department of Surveys and Mapping and further improved by the Municipal Demarcation Board. The schools data was supplied by the Department of Education based on the 2002 SRN database. The data provided for the police stations is derived from the spatial data provided by the Human Sciences Research Council (HSRC). The health facility data is provided by the Department of Health. The traditional authority information is derived from the spatial database created by the Municipal Demarcation Board and the Department of Provincial and Local Government. All of the data provided is for information purposes only, and the Municipal Demarcation Board has not verified the accuracy of the data provided.

Maps

Maps may be viewed according to the following categories.

- Population Distribution and Dynamics
 - Population Group (Dominant)
 - Population Density
 - Home Language (Dominant)
- Demographic Characteristics
 - Sex Ratio
 - Persons with Disabilities (Dominant)
- Socio-Economic
 - Persons 20+ years old with No Schooling
 - Economically Active Population
- Households and Housing
 - Dwelling Types
 - Household Size
 - Room Size
 - Cooking Energy Source
 - Heating Energy Source
 - Lighting Energy Source
 - Refuse Services
 - Sanitation Service
 - Telephone Services
 - Water Services.

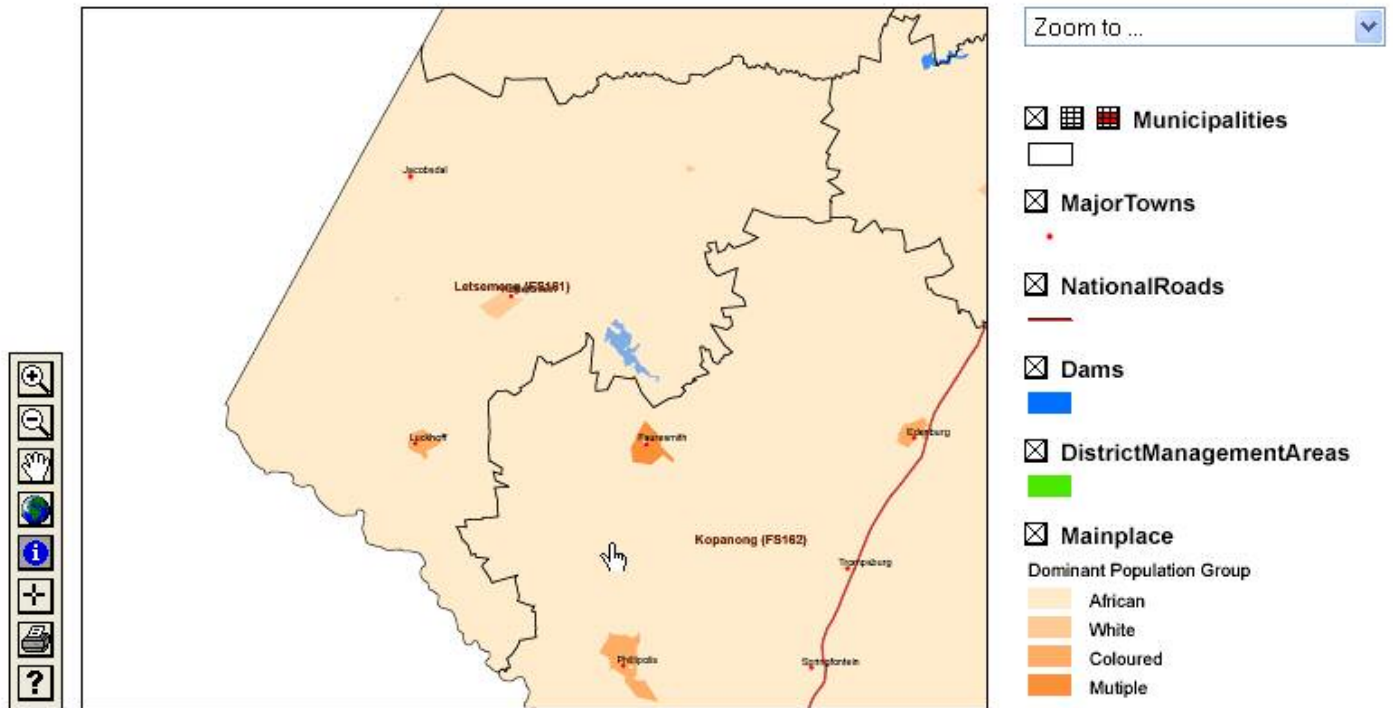

Please ensure that you have the SVG view installed on your PC. If you are unsure, please consult the minimum requirements sections of this manual or view the readme file.

In order to view a map, first choose a Province and a Municipality from your Navigation bar, Next select map type from the Map Type drop down list and click go on next to it.

Province Municipality Map Type Go Button

The screenshot shows the 'profiles2006' website interface. At the top, there is a navigation bar with the Statistics South Africa logo and the title 'profiles2006'. Below the navigation bar, there are four dropdown menus and a 'Go' button. The first dropdown menu is labeled 'Province' and shows 'Free State'. The second dropdown menu is labeled 'Municipality' and shows '--Letsemeng Local Municipality (FS161)'. The third dropdown menu is labeled 'Map Type' and shows 'Population Distribution and Dynamics'. The fourth dropdown menu is labeled 'Go Button' and shows 'Go'. Below the navigation bar, there is a map of South Africa with the provinces labeled: Limpopo, North West, Gauteng, Mpumalanga, Northern Cape, Free State, KwaZulu Natal, Western Cape, and Eastern Cape. On the left side, there are three sections: 'MAPS & DEMOGRAPHICS', 'STATISTICS', and 'CAPACITY ASSESSMENTS'. On the right side, there is a list of map types and a 'Go' button. The map types listed are: Population Distribution and Dynamics, Population Group (Dominant), Population Density, Home Language (Dominant), Demographic Characteristics, Sex Ratio, Persons with Disabilities (Dominant), Socio-Economic, Persons 20+ years old with No Schooling, Economically Active Population, Households and Housing, Dwelling Types, Household Size, Room Size, Cooking Energy Source, Heating Energy Source, Lighting Energy Source, Refuse Services, Sanitation Service, Telephone Services, and Water Services. Below the map types list, there is a link to 'Medical Facilities for Municipalities & Wards'.

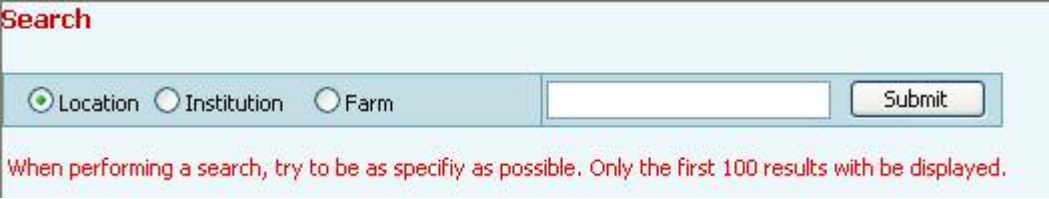

Dominant Population Group

You can zoom to a specific municipality by selecting a municipality code from the zoom to drop down list. Please note there are no maps available at a ward level.

Search

In order to perform a search, click the search link on the navigation menu.

The image shows a search form with a light blue background. At the top left, the word "Search" is written in red. Below it, there are three radio buttons: "Location" (which is selected, indicated by a green dot), "Institution", and "Farm". To the right of these buttons is a white text input box. Further right is a button labeled "Submit". Below the input box and buttons, there is a line of red text that reads: "When performing a search, try to be as specifiy as possible. Only the first 100 results with be displayed."

First select the type of search from the radio buttons (Location, Institution or Farm). Next, enter the keyword to search for in the search box.

If you have trouble viewing the maps, ensure you have installed the SVG viewer.

FAQ

1. Where is the stats information from?

The statistics for Municipal Profiles comes from Statistics South Africa. The data was gathered from the 2001 Census.

2. Will there be a Linux or OS2 version available.

Currently we do not have any plans for developing on a platform other than windows.

3. The maps are blank. How can I view them?

Please ensure that you have installed the SVG viewer.
